The electric vehicle (EV) North Dakotans and Minnesotans have been waiting

Beltrami Electric Cooperative Inc.

Your Touchstone Energy® Cooperative

for is here. Ford has announced it will start delivering its all-electric Ford F-150 Lightning in 2022, and dealers have already been overwhelmed with reservations from those who see the benefits of the future-focused pickup.

We understand our members still have apprehensions about EVs. Our region needs strength and durability to get things done. But this name is recognized for being tough, and this F-150 will be no different.

Need a workhorse that won't drain your bank account?

The starting price for an F-150 Lightning is just \$39,974. Models that add more comfort and range features will start at \$52,974, which is still an amazing price for all this EV has to offer.

Need the speed to pass quickly on a two-lane country road?

The Lightning is lightning fast, boasting 563 horsepower and 775 lb.-ft of nearly instant torque. Here's a reason to upgrade to the extended-range battery – its 0-60 mph time is in the mid-4-second range.

Need a "tank" that will handle a full day of driving from field to field?

The basic range for the Lightning is 230 miles, more than enough to tackle all of your daily tasks before plugging in at night. You can choose an extended range-battery that will boost you to 300 miles.

Need a generator when that wicked storm takes down your electric line for a couple of hours?

Ford Intelligent Backup Power turns the truck into a power source with the ability to deliver 9.6 kilowatts. Plug in and keep your lights, appliances and security system running for up to three days.

Need the strength to tow the boat to the lake?

The truck targets a maximum 2,000 pounds of payload, but drivers can see up to 10,000 pounds of towing capacity with the extended-range battery and Trailer Tow Package.

Need a vehicle that won't emit exhaust into the clean rural air you love so much?

Like all fully electric vehicles, the F-150 Lightning does not produce emissions. Not only are you keeping your homestead air cleaner, you're contributing to a global effort to reduce transportation emissions.

You need an all-electric Ford F-150 Lightning.

www.gopherstateonecall.org

Anyone who plans to dig is required by law to notify the state of their intentions at least 48 hours in advance.

All digging requires the 48-hour notification so that buried telephone lines, television cables, pipelines, utility electrical lines, and municipal water and sewer lines can be located to ensure that none will be severed or damaged.

Mission of Beltrami Electric Co-op

To provide excellent value to our members through the safe delivery of reliable electric service, excellent member service and innovative energy solutions at fair and reasonable prices.

This institution is an equal opportunity provider and employer.

Members benefit from upgrades to energy efficiency standards

Jared Echternach, *President and CEO*

After nearly four years of work, the Energy Conservation and Optimization (ECO) Act, a bill led by electric cooperatives, passed the legislature at the close of the regular session with strong bipartisan support and was signed into law by Gov. Walz. Thank you to Sen. Paul Utke for supporting significant and beneficial reform to the state's energy efficiency standards, a cornerstone of the state's energy policy.

Beltrami Electric Cooperative is excited about the improved benefits we will be able to pass along directly to our members because of the proactive provisions in the ECO Act.

The ECO Act gives Beltrami Electric more flexibility to recognize and respond to emerging technologies and consumer behaviors and demands. Utility programs that encouraged the adoption of technologies like LED lighting and Energy Star®-rated appliances have provided more than \$6 billion in net benefits to the state and supported local jobs in every corner of Minnesota. However, as new technologies have emerged, the Conservation Improvement Program (CIP) became outdated and needed reforms to continue providing tangible savings for energy consumers.

In addition to allowing utilities to

create programs that incentivize adoption and installation of new technologies to help reduce total energy use and save consumer-owners money, a groundbreaking reform around efficient fuel-switching – substituting electricity or natural gas for a consumer-owner's current fuel source – is provided in the bill. As part of the reforms, efficient fuel-switching improvements will allow cooperatives to offer programs that substitute electricity for a member's current fuel when those programs achieve a trifecta of (1) reducing the overall amount of energy used; (2) reducing greenhouse gas emissions; and (3) reducing costs. The legislation also eliminates the state-mandated spending requirement, making the program a results-focused program rather than a spending program.

For more than eight decades, Beltrami Electric Cooperative has been providing members with safe, affordable and reliable electricity, and helping our members use energy wisely. The ECO Act will expand our efforts to help members save money and energy. To learn more about our energy efficiency programs, please visit www.beltramielc.com or call 218-444-2540 or 800-955-6083 to speak to one of our energy experts.

OFFICIAL NOTICE

– OF –

ANNUAL MEETING

The 81st annual meeting of the members of Beltrami Electric Cooperative, Inc., will be held at the Marilyn Shutter Stage on the Beltrami County Fairgrounds on **WEDNESDAY, AUG. 11, 2021, at 5 p.m.**, for the following purposes:

1. To pass upon reports covering the previous fiscal year;
2. To elect three (3) directors of the cooperative in accordance with the bylaws, one each in Districts 3, 7 and 9, each for a three-year term;
3. To transact such other business as may come before the meeting.

Murl Nord, *Secretary*
Beltrami Electric Cooperative, Inc.
Board of Directors | July 1, 2021

NOTE: In order for a member corporation, etc., to participate in business matters, a form must be received by the secretary of Beltrami Electric Cooperative on or before the date of the members' meeting(s). To receive a copy of this form, please contact the cooperative at 218-444-2540.

2021 Congrats, Class of

BEC scholarship recipients

Beltrami Electric Cooperative awards scholarships annually to students attending seven high schools within BEC service territory. This year, the cooperative awarded \$1,000 scholarships to seven area high schools in our service area. To be eligible, students' parent(s) or guardian(s) must be a Beltrami Electric member and show proof of enrollment in a post-secondary education institution the following year. Each school selected the winners through committees or guidance centers. Beltrami Electric scholarships are funded with unclaimed capital credits that otherwise would be forfeited to the state.

Lily Vleck
Bemidji High School
Parents: Alan & Karen Vleck

Alexa Sparby
Blackduck High School
Parents: Matt & Jessie Sparby

**NO APPLICANT
IN 2020 BUT
WILL AWARD
IN 2021.**

*Cass Lake –
Bena High School*

Raleigh Hughes
Kelliher High School
Parents: Mike & Vicki Hughes

Alyssa Moss
Laporte High School

Parents: Delwyn Jr. & Bobby Holthusen

Dylan Johnson
Walker-Hackensack-Akeley High School
Parents: Kevin & Kim Johnson

***Beltrami Electric is
pleased to contribute to
the further education
of students each year.
We wish them the best
of luck in their studies
and careers!***

Jack Gilbert
Northome High School
Parents: Chad & Kayla Smischney

At-large scholarship recipient

Beltrami Electric Cooperative also awarded one \$1,000 at-large scholarship to a student who is a dependent of a BEC member, who attends a school other than the seven listed above. This scholarship was awarded based on a combination of academic achievement, work experiences, participation in school and community activities, submission of a 500-word essay and two written letters of recommendation by a third party.

YOUR BILL IS GETTING

Beltrami Electric Cooperative is excited to present a new and improved bill design! Our current bill print required a software update which enabled us to make some very valuable improvements to your bills!

1986 18-foot Lund boat and 90 hp Mercury motor, 4 swivel seats and trailer. \$4,550. As-is. 218-243-2702.

Solid oak 6-ft church pew, \$175. Large storage ottoman, mushroom color, new, too big for my living room, \$150. Small brown storage ottoman, \$10. 218-766-8781.

Remington 870 2-gauge, 2 barrels, mod and full, \$600. 5 boxes .30-40 Krag. 1 set of 30-40 KCBS dies. 218-209-9799.

83" x 20' flatbed imp. Trailer with rear support stands, 10K jack, diamond plate fenders, 4 d-rings, 750-16 upgrade tires and (2) 5,200 lb electric brake axles. Very good condition. Call 218-308-4025.

Hoyt Rampage bow, 40-50. Martin Take Down, 2 sets of limbs 45-50. Too many accessories to mention. \$400 for both. Call 218-760-2254.

Genuine Red Wing 4-gallon crock water cooler. Mint condition with perfect cover. Price \$475 firm. 218-759-1919.

Waterproof canvas pop-up shelter, suitable for outdoor shelter for snowmobile or ATV. Could also be used as outdoor sleeping shelter, \$50. Small drag with quality chain attached. Used to maintain a gravel driveway, \$50. Assorted cookbooks, \$3 and under. 218-586-2884.

Wanted:

Looking for OLD issues of Beltrami Electric Cooperative's Northern Lights newsletter, between the 1940s-1960s. Please contact Angela at Beltrami Electric or call 218-444-3689.

Looking for someone who does reupholstering. We have a couch and other items. 218-854-7333.

Canning jars: gallon, 1½ quarts, quarts, pints, jelly jars. What have you? New lids. 218-751-2172.

Hood for a John Deere riding lawn mower, SST 18 or SST14 or 16, spin steer. Metal kitchen cabinets, whatever you have, some fixing okay as it is for a cabin. Call or text: 218-214-0915.

Free:

Free older upright piano and bench. Good condition, needs some minor repairs. Manufactured by PS Wick in St. Paul. You haul, call 218-586-2334.

Lost:

Navy blue pontoon cover, near Laporte. Call 320-267-2193.

WELCOME, NEW EMPLOYEES!

Beltrami Electric Cooperative is pleased to announce the addition of two seasonal apprentice lineworkers to our operations department.

Tanner Turn, son of Vicki Turn (Bruce Huderle) and Rick Turn, recently joined Beltrami Electric in the line department as a seasonal apprentice lineworker. Tanner is a graduate of Bemidji High School and Minnesota State Community and Technical College in Wadena, Minn., where he completed the electrical lineworker program. He has worked for Legacy Power Line and

Cooperative Development, LLC. Tanner enjoys hunting, fishing and spending time outdoors. Welcome, Tanner!

Travis Voelkner recently joined Beltrami Electric in the line department as a seasonal apprentice lineworker. Travis is a graduate of the electrical lineworker program at Northwest Lineman College in Boise, Idaho, and holds a Bachelor of Science degree in environmental studies from Bemidji State University. Travis has worked at Okay Construction in Minnesota and EOG Resources in North

Dakota. He enjoys hunting, fishing, camping and canoeing. Travis and his wife, Laura, reside in Bemidji with their two sons, Jaxon and Sawyer. Welcome, Travis!

Independence Day

We are thankful for the brave men and women who selflessly gave the ultimate sacrifice so that we can enjoy the freedoms their service affords us.

Beltrami Electric will be closed on Monday, July 5, in observance of Independence Day.

BOARD MEETING HIGHLIGHTS

Beltrami Electric's board of directors conducted its regular monthly meeting Wednesday, May 26, 2021. A quorum of directors was present.

The following reports were given:

- President and CEO Echternach gave his monthly report, including discussion on COVID-19, employee updates, legal updates and legislative issues affecting the cooperative.
- Jolene Kallroos, member services manager, and Tiffany Volk, member accounts lead, presented the cooperative's bill print redesign scheduled to begin in July.
- Dave Hengel, Greater Bemidji, gave an economic development update.
- Arlene Hogquist presented the April financial report and long-range financial forecast.

- Chair Lund appointed the CoBank voting delegate.

- Directors and the CEO shared highlights of meetings attended on behalf of the cooperative and discussed upcoming meetings and educational conferences.

The following actions were taken:

- Approved the consent agenda.
- Approved credit card examination proposal by auditor Brady Martz
- Approved a contribution to the Cooperative System Integrity Fund.
- Approved the director expense reports.

The next board meeting will be Wednesday, July 28, 2021.

MINI-SPLITS ARE THE Cherry on Top OF COMFORT

The pint-sized electric technology that makes any space a treat

Here's the scoop: You've found the perfect lake property or starter home that you've been dreaming of, complete with all of the rustic character and scenic views you could hope for. Just one thing is missing – ductwork to keep your family and friends from melting in the summer and turning into popsicles in the winter.

No ducts? No problem. You just need a mini-split heat pump – and Beltrami Electric can set you up to save **BIG**.

Mini-split heat pumps are the cost-effective and efficient way to keep your place comfortable without the expense and hassle of adding ductwork. The technology is small and simple: A compressor unit is installed outside and is connected to an indoor unit by cables and a refrigerant line. The system works like a standard air-source heat pump unit, which uses electricity to move heat out of the home in the summer and into the home in the winter. The year-round versatility of the system makes it a one-and-done heating and cooling project.

Isn't that sweet?

Here are a few more reasons you should sprinkle a mini-split – or two, or three – into your life:

- They are a perfect solution for a drafty bedroom.
- They use just enough energy to cool your sunroom.
- You could even install one in a shed or garage.
- Mini-splits are discreet and placed high on the wall or ceiling to blend into surroundings.
- Mini-splits are often much quieter than central air or furnaces.
- You can preset the unit to run automatically or adjust the temperature by remote.
- The units run on less power than forced-air systems, and that efficiency saves money.
- The units may qualify for your cooperative's super-low off-peak electricity rate.
- You can score up to \$500 in installation rebates.

To learn how to best dish up the savings, call our member services team at 218-444-2540 or 1-800-955-6083, or visit our website: beltramielectric.com.
