

## Residential Heating Incentives Application

Name:			Phone:		Account #:	
Mailing Address:			Installation Address (if different):			
City:	State:	Zip:	City:	State:	Zip:	
Email:				Location #:		

### Checklist:

- ✓ Itemized receipt or invoice is required.
- ✓ If not installed by a licensed contractor, please call 218-444-2540 to schedule an inspection by a BEC technician. An inspection must be completed before the incentive application can be submitted.

Air-Source Heat Pumps Mini-Split Heat Pumps	AHRI Certificate #	Qty (Tons)	Power Savers * AHRI certificate required	Power Savers Total	Value of Electricity Total (\$150/Ton)
Air source heat pump (ASHP) ≥ 14.3 SEER2 and HSPF2 ≥ 7.5			\$300	\$	\$
Air source heat pump (ASHP) ≥ 16.0 SEER2 and HSPF2 ≥ 8.0			\$600	\$	\$
Mini-split Ductless Heat Pump (MSHP) ≥ 14.3 SEER2 and HSPF2 ≥ 7.5			\$300	\$	\$
Mini-split Ductless Heat Pump (MSHP) ≥ 16.0 SEER2 and HSPF2 ≥ 8.0			\$600	\$	\$

**\* If no AHRI Certificate is provided, the unit is only eligible to receive the Value of Electricity incentive.**

Furnace Manufacturer:	Model #:	Serial #:
Outdoor Unit ASHP/MSHP Manufacturer:	Model #:	Serial #:
Indoor Unit ASHP/MSHP Manufacturer:	Model #:	Serial #:

### Supplemental heating source for ASHP

(Steffes furnaces or modulating plenum heaters)

**Must modulate to allow qualifying ASHP to operate down to 5° F and must be on load control.**

Manufacturer:	Model #:	Serial #:	Qty:	Power Savers \$500/unit	Total: \$
---------------	----------	-----------	------	----------------------------	--------------

### Requirements for all HVAC Equipment:

1. All equipment must be new and installed at a BEC member location.
2. Electric heating equipment must be hard-wired (NO plug-in loads are eligible for rebate).
3. The furnace and condenser model and serial numbers, evaporator model and serial number, and AHRI reference number are required to qualify for the Power Savers rebate. All efficiency ratings will be verified using the AHRI database (ahridirectory.org) or manufacturer specifications.
4. All HVAC systems connected to BEC's load management program need to be inspected by a BEC technician.
5. Air-source heat pumps and mini-splits do not have to be part of a load management system to be eligible for this rebate.

Programmable Thermostat	Brand installed	Model Number	Qty	Incentive	Power Savers Total
Programmable Thermostat				50% of Purchase Price (Up to \$25)	\$
Energy Star® Smart Thermostat (must be Wi-Fi connected)				50% of Purchase Price (Up to \$50)	\$

Design Temperature used for analysis:		Resulting Heat Loss:		Equipment Heating Capacity Required:	
System provides: <input type="checkbox"/> Cooling <input type="checkbox"/> Heating <input type="checkbox"/> Both			Type of Geothermal System: <input type="checkbox"/> Water-to-water <input type="checkbox"/> Water-to-air		

### Additional Requirements for Replacement Geothermal equipment:

1. Incentive available for failed geothermal equipment only.
2. Entire indoor unit replacement is required to receive incentive. Replacing only the compressor will not qualify for the incentive.
3. Equipment must meet or exceed efficiency requirements as stated above at ISO Standard 13256-1 (water-to-air) or ISO Standard 13256-2 (water-to-water) testing conditions.
4. Equipment being replaced must fall outside of any warranty period to receive incentive. Invoice showing proof of purchase must be attached.
5. If equipped with backup electric heat, building must be on load control.

Standard Resistant Electric Heating (Plenum, baseboard/cove heater, blower heater)	Mfr	Model #	Serial Number	Qty	Value of Electricity (\$25/kW)	Total
					\$	\$

  

Storage Electric Heating (Steffes or boiler storage)	Mfr	Model #	Serial Number	Qty (kW)	BEC Storage (\$30/kW)	Value of Electricity (\$45/kW)
					\$	\$
